ENCLOSURES
PRO SERIES

Discover the sophistication of Multibrackets latest indoor & outdoor enclosures, crafted to elevate your LED display installations. Our innovative modular design offers unparalleled flexibility, meeting the demands of both the AV industry and professional installers. These enclosures not only enhance the visual appeal of your setup but also ensure seamless installation and maintenance.

Engineered with elegance and functionality in mind, our enclosures support a diverse range of applications. Whether mounted on walls, columns, or ceilings, or paired with floor stands, they adapt effortlessly to any environment. Embrace the future of digital signage with Multibrackets' enclosures, designed to harmonize with your space while providing a sleek, professional finish.

Designed and engineered in Sweden

Enclosures

Simplify signage installations with thin and easy to install enclosures.

Perfect for digital signage in multiple environments such as retail stores, store windows, meeting rooms, hotel lobbies or conference rooms where you want a clean design and less display look. Our enclosures can be used where the casing needs to hang freely or directly on the wall.

Use ceiling mounted solutions or floor to ceiling mounted solutions. Most enclosures also works nicely in combination with a selection of the Multibrackets Pro Series Enclosure Floor Stand solutions.

Well-designed enclosures made for public appearance. Creating a minimalistic look and possible to mount in both Portrait or Landscape position from Multibrackets® well ventilated and clean designed, probably one of the most versatile enclosures available up to date. A wide range of sizes available to fit almost every request.

Some key benefits of keeping your displays in casings in public spaces.

Damage Protection
Shields your screens from impacts, vandalism, and daily wear.

Security
Prevents unauthorized access and tampering, keeping your displays safe.
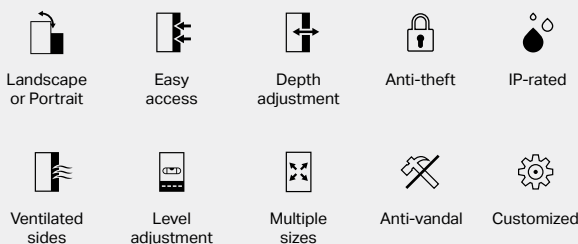

Durability
Lowers maintenance costs by reducing the risk of damage.

Improved Visibility
Enhances screen clarity while reducing glare for optimal viewing.

Aesthetic Appeal
Offers a polished, professional look that can be customized with your branding.

The Customer Case: The Grocery Chain

Implementing digital displays in grocery stores is a strategic move that can significantly enhance sales and profitability.

These displays are highly effective in capturing customer attention through engaging, dynamic content, which ranges from special promotions to eye-catching product highlights. This visual appeal drives impulse purchases, leading to an increase in overall sales.

Moreover, digital displays offer the opportunity for brands to purchase advertising space, creating an additional and consistent revenue stream for the store. This capability not only adds to the store's income but also strengthens partnerships with key brands by providing them with a direct channel to reach consumers at the point of purchase.

Beyond just boosting sales, digital displays can be used to tailor and showcase targeted promotions and special offers based on time of day, inventory levels, or customer demographics, further maximizing their effectiveness.

This targeted approach not only enhances the overall shopping experience but also encourages customers to spend more during their visits.

The initial investment in digital displays is quickly offset by the dual benefits of increased sales and advertising revenue.

As these displays continue to attract customer attention and provide valuable advertising opportunities, the store will see a substantial increase in profits, making the investment highly worthwhile.

Enclosures

Create a minimalistic look with Multibrackets® enclosures, offering flexibility for both Portrait and Landscape orientations.

These enclosures are among the most versatile on the market today, designed to accommodate a wide range of display needs. Available in various screen sizes and colors, they are compatible with most major signage display brands. Enhanced with smart thermal management, they ensure optimal cooling performance and display longevity.

Multibrackets® enclosures can be seamlessly integrated into diverse environments through

a variety of mounting options. For spaces where wall space is at a premium, wall-mounted enclosures provide a sleek and low-profile solution. When direct wall mounting isn't feasible, column-mounted enclosures offer flexibility by attaching displays to structural columns, making them ideal for open areas.

For installations requiring overhead placement, ceiling-mounted enclosures keep displays clear of floor space while maintaining visibility from all angles. Alternatively, the wire-mounted enclosures utilize a floor-to-ceiling wire system that creates a nearly invisible framework, giving

displays a floating appearance that suits modern and stylish settings.

If mobility and versatility are key, the Multibrackets Floor Stand Kiosk provides a practical solution for high-traffic areas like malls or public spaces. For those seeking a sleek and stable setup in large open environments, the floor-to-ceiling mount offers customizable height and a minimal footprint.

Lastly, the totem-based enclosures present a bold, freestanding option, perfect for high-visibility areas such as hotel lobbies, airports, or exhibitions. These totem-style

enclosures serve as striking digital signage units that combine functionality with visual impact.

Pro Series Enclosures feature a depth-adjustable exterior frame for fitting various display models and reversible hinges to simplify installation and service access. Their clean, black design complements any setting, from corporate offices to retail spaces and public areas, blending modern aesthetics with superior performance.

Back to Back

Inspire and engage visitors

With dynamic, attractive content, whether in a shopping mall, hotel lobby or airport. Multibrackets' B2B enclosures offer the perfect solution for retailers and businesses looking to communicate their messages in high-traffic environments.

Flexible mounting options

These enclosures are designed for ceiling mount, floor stand, or wire-based installations, providing unmatched versatility. The sleek, minimalistic design is tailored for both portrait and landscape modes, allowing users to choose the orientation that best suits their content and environment.

Clean aesthetic, professional finish

With an emphasis on cable management, the enclosures ensure a clean, polished appearance. Cables are neatly guided through ceiling pipes (available separately) and the casing effectively covers the display's bezel, sides, and back, creating a seamless and professional look that enhances the overall display.

Built for high traffic areas

Ideal for public areas like shopping malls or transport hubs, these enclosures are robustly built to protect your displays while showcasing your content. Designed with

quality materials and offering secure mounting solutions, they provide the durability and reliability needed for continuous use.

This flexible and elegant solution allows you to create high-impact digital signage in any setting, ensuring your messages reach your audience in the most effective way possible.
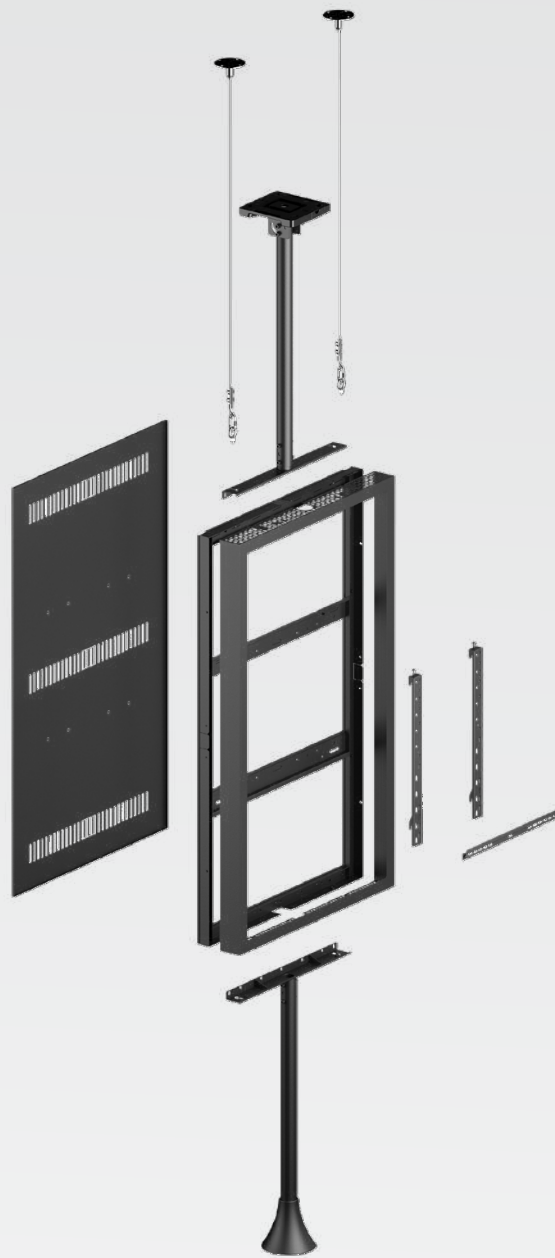

Modular solutions

The Pro Series enclosures was designed with the installer in mind. Modular, easy to configure, quick to install, and simple to maintain.

This means that the product can change over time. Working closely with installers we created a range with close to unlimited flexibility.

These Enclosures are no exception. The product provides the versatility and flexibility demanded by installers.

Based upon the Pro Series strong and ultra-flexible it is completely modular and to quicken installation and creating an esthetic result worth the public eye.

You can easily change its configuration over time, Ceiling pole, Floor to Ceiling poles or Wires is just a question of need.

Air flow

Compatibility and Airflow Performance

Multibrackets Enclosures are designed to be highly compatible with a wide range of display manufacturers, including selected models from LG, Philips, Vestel, Iiyama, Hisense, Sony, and more.

Our enclosures are meticulously engineered to work seamlessly with these brands, ensuring optimal performance and durability.

Airflow Management

Effective airflow is crucial for maintaining the performance and longevity of digital displays. Our enclosures are specifically engineered to manage heat dissipation efficiently.

Certain models have undergone rigorous heat testing and have been validated by screen manufacturers to meet their stringent standards for thermal management.

Airflow & Heat Testing Approved by Samsung

Specific casings have undergone rigorous testing by Samsung and have been approved for their ability to manage heat and airflow effectively.

The Universal 55" Casing/Enclosure (EAN: 7350105211188) meets Samsung's standards and can be used in various installations, including wall, ceiling, column, floor-to-ceiling, and more.

Testing and approval

The airflow and thermal management features of our enclosures have been thoroughly tested using advanced technical drawings and simulations.

These tests are conducted in close collaboration with screen manufacturers to ensure our enclosures meet their specific heat management requirements.

While not all models have been validated, specific designs have received approval from leading screen manufacturers, confirming their effectiveness in handling heat airflow according to approved standards.

This rigorous testing process ensures that our enclosures provide reliable protection and optimal cooling for your displays, extending their operational life and maintaining peak performance.
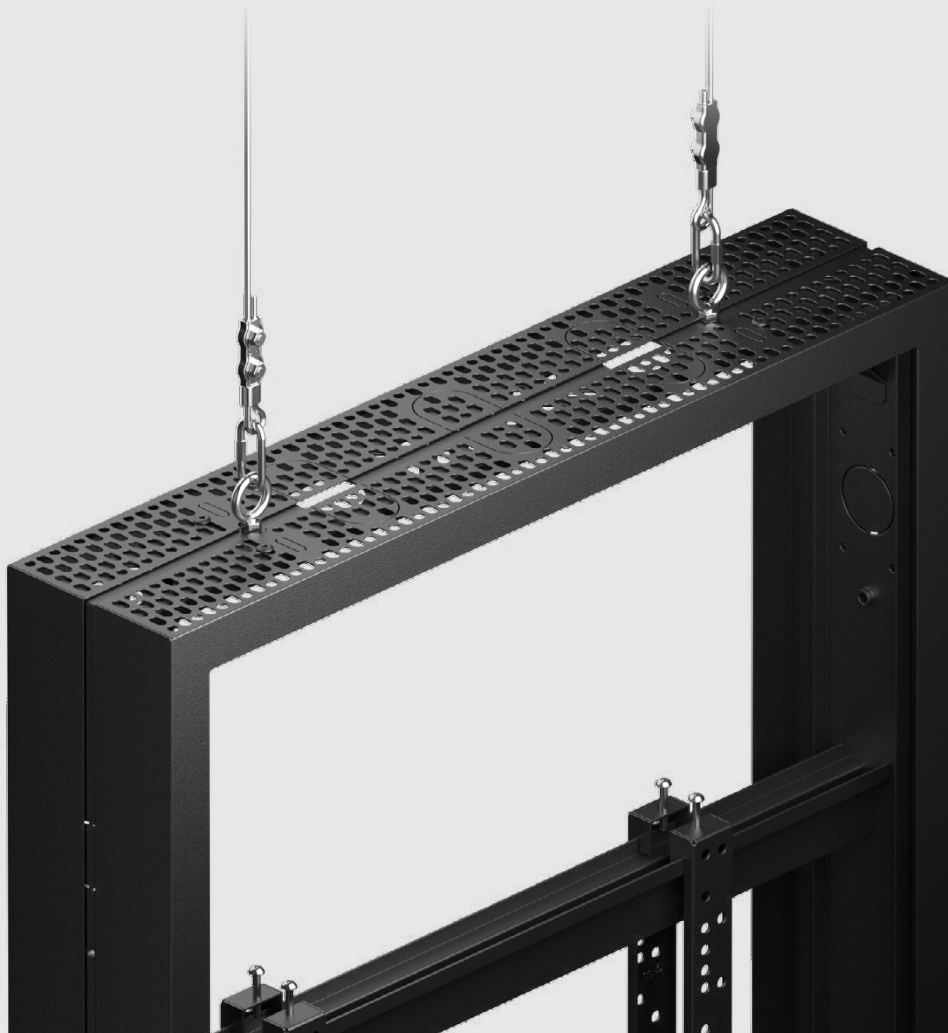

Depth adjustment

Flexible Depth Adjustment for Optimal Fit

The Pro Series Enclosures are designed with exceptional flexibility to accommodate a wide range of displays from various manufacturers. Featuring a two-part construction, these enclosures offer a smart and straightforward depth adjustment mechanism.

This innovative design allows for easy customization to fit different display sizes and types, enhancing versatility and compatibility.
The depth adjustment not only ensures a precise fit but also improves airflow around the display, which can be crucial for maintaining optimal performance and longevity.

This adaptability is especially beneficial in diverse installation environments, where different display models and brands are used.

Designed with Installers in Mind

The Pro Series Enclosures prioritize ease of use for installers. The modular design allows for quick configuration and installation, while the depth adjustment feature ensures a perfect fit for a variety of displays.

Additionally, the enclosures are easy to maintain, making them a practical choice for both new installations and upgrades.

Multibrackets rigorously tests these enclosures to ensure they meet the requirements of various display manufacturers.

The depth adjustment capability further extends their flexibility, making it possible to achieve a precise fit and optimal performance across a wide range of display technologies.

Portrait & Landscape

Multibrackets casings are designed for ultimate flexibility, allowing installation in both landscape and portrait orientations.

They accommodate displays ranging from 13" to 98", ensuring suitability for a wide variety of applications.

These casings are specifically engineered to securely hold screens in perfect balance, whether mounted in landscape or portrait mode.

Additionally, they include features for micro-adjustments, allowing precise alignment and ensuring the display is perfectly positioned.

The Pro Series enclosures are tailored for installers, offering a modular design that is easy to configure, quick to install, and simple to maintain. With these enclosures, achieving a flawless installation is both efficient and straightforward.
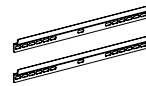

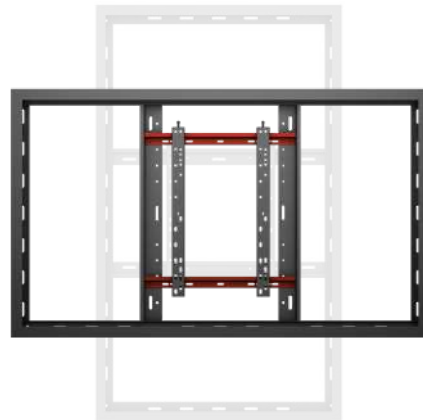

Integrated adapters for landscape installations.

Level Adjustment & VESA Compatibility

The Pro Series enclosures are crafted with installers in mind. Their modular design makes them easy to configure, quick to install, and simple to maintain.

Engineered for versatility, these casings securely hold screens in perfect balance, whether mounted in landscape or portrait mode. They also feature micro-adjustment capabilities, allowing for precise alignment to ensure the display is perfectly positioned.

These enclosures support multiple VESA specifications, making them compatible with a wide range of brands and display models. This versatility ensures they can accommodate various installation requirements.
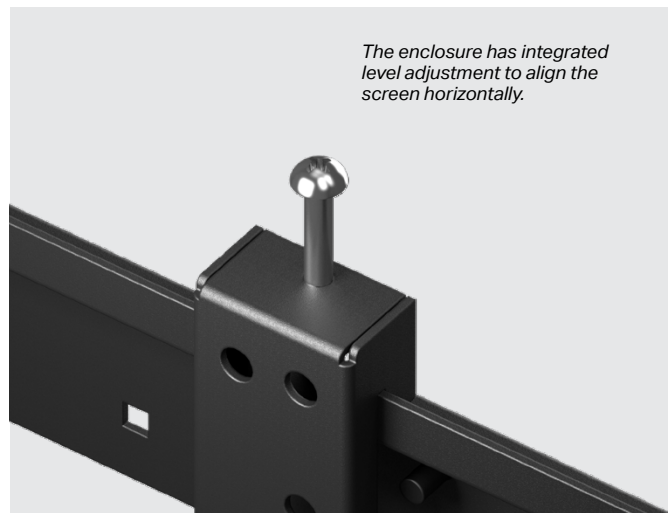

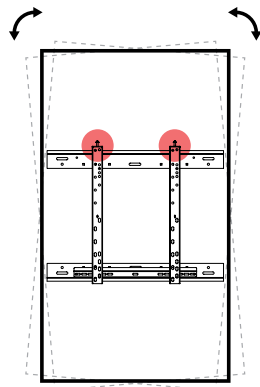

The enclosure has integrated level adjustment to align the screen horizontally.

Safety Sheets

Designed with safety in mind to protect the displays from tampering, theft and damage. Easy to install.

Polycarbonate is a highly durable, impact-resistant material used in display casings to protect screens from damage while maintaining clear visibility and safeguarding against environmental factors.

Safety sheet

Safety sheet
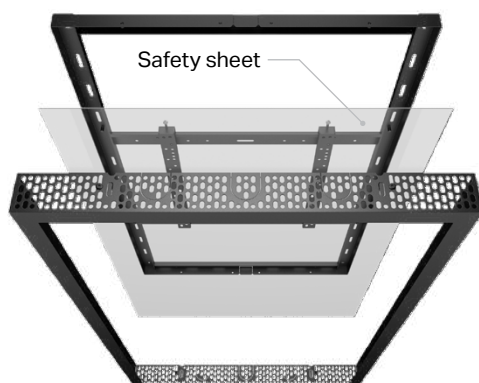

Anti-vandal

Vandal-proof casings and glass are essential for LCD displays and monitors located in vulnerable public spaces, where the risk of damage is significantly higher.

These protective solutions are designed to safeguard your displays from intentional harm and extend their lifespan.

Safety glass

Display

Multibrackets Display Enclosures
Versatility for every type of display

Multibrackets offers a range of high-quality enclosures designed to meet the diverse needs of different display types.

Our lineup includes three main versions: Standard, Slim, and High Brightness. Each tailored to specific display requirements, along with a customizable option for unique projects.

Standard Enclosures

Our Standard enclosures are designed for most standard displays across various brands. These enclosures are highly versatile and universal, featuring a built-in depth adjuster that allows you to easily accommodate screens of different depths. This makes the Standard version an ideal choice for a wide range of applications.

Slim Enclosures

The Slim enclosures are specifically crafted for ultra-thin displays, often referred to as "super slim" displays. These enclosures are perfect for installations where a sleek, minimalistic appearance is essential, ensuring a snug fit for thinner screens without compromising on style or function.

High Brightness Enclosures

For displays with high light emission, our High Brightness enclosures are the perfect solution. These enclosures are designed to be more spacious, providing enhanced airflow to manage the heat generated by brighter screens. This version also accommodates larger displays, ensuring both the screen and the casing perform optimally under higher brightness conditions.

Tailor-Made Enclosures

For projects requiring something beyond the standard options, we offer a Tailor-Made version. This option allows you to customize the details of your enclosure, including dimensions, features, and even the color of the casing. Whether you have specific aesthetic or functional requirements, our Tailor-Made enclosures ensure a perfect fit for your unique needs.

Wallmounted Enclosures

Perfect for stores, public transportation areas, restaurants, lobbies, or next to elevators, these wall-mounted enclosures offer a clean, professional way to display important information or messages. Whether in corporate, residential, or public spaces, the display is fully enclosed for added protection and aesthetics.

The enclosure can be mounted in either landscape or portrait orientation, allowing flexibility depending on your space and needs. Simply choose the preferred orientation during installation.

For added safety, you can choose a polycarbonate glass front to protect the display from tampering and ensure easy cleaning. Hidden cable outlets and optional safety screws provide additional security.

Column enclosures
For almost any shape

The Multibrackets M Pro Series Column Enclosure is an innovative solution for mounting displays on both round and square columns without the need for drilling.

This ready-to-install single-display enclosure provides a secure and stylish way to house your display, making it perfect for environments where traditional mounting methods are impractical.

Designed for versatility, this enclosure adapts to various column shapes and sizes, ensuring a stable and aesthetically pleasing installation. Ideal for commercial spaces and other settings, the column enclosure simplifies the installation process while offering robust protection and an elegant finish.

Totems

Present digital information indoors with Multibrackets Totem floor-based solutions. Ideal for promoting vibrant content in storefront windows, these mounts offer flexible options for both stand and ceiling installations, providing clarity and visibility for high-impact messaging.

Sleek and Space-Saving

With a clean, modern look, these Totems help optimize valuable floor space while maintaining a professional appearance. Concealed cable management and minimal visible hardware create an elegant solution for displaying content in retail environments.

Installer-Friendly

Adaptable for various applications, Multibrackets Totems are designed with installer-friendly features, making them the preferred choice for store window displays and commercial spaces. Perfect for maximizing impact with minimal effort.

High Brightness

For displays with high light emission, our High Brightness enclosures are the perfect solution.

These enclosures are designed to be more spacious, providing enhanced airflow to manage the heat generated by brighter screens.

This version also accommodates larger displays, ensuring both the screen and the casing perform optimally under higher brightness conditions.

Slim

This extra-slim enclosure is crafted from high-quality steel and painted using state-of-the-art machinery, resulting in a solution that elevates the design and ambiance of any space.

Like the rest of the Pro Series enclosures, it offers versatile installation options: wall-mounted, suspended from the ceiling, or on a dual pole floor stand.

Each slim enclosure includes all the necessary hardware for straightforward installation in portrait or landscape. The modular design allows for easy customization and adaptation over time, supporting extensions up to 6 meters to accommodate various display sizes.

Anti-Theft

Enhance the appearance of your digital signage in storefront environments while protecting your investment. Ideal for high-traffic areas, this sleek enclosure provides both style and security.

Outdoor

Full Range of Outdoor Enclosures

In many situations, outdoor displays and enclosures are essential.

Multibrackets stands out as one of the few providers offering a complete line of outdoor enclosures, whether wall-mounted, ground-mounted, or ceiling-mounted.

We support all popular brands, including Samsung, LG, Philips, Dynascan, and more.

Our Outdoor Enclosures Feature:

- Compatible with 46", 55", and 75" displays
- Wall, pole, or ceiling mounting options
- 100% anti-corrosion and anti-theft design

For example, our wall mount for a 75" display can be used in both portrait and landscape orientations, supporting screen sizes up to 75" with a max load of 160kg (VESA: 1186x560 mm) in sleek black.

Upgrade Your Signage Replace static signage with displays from Samsung, LG, or Philips, and use Multibrackets mounts.

Our all-weather rated wall mounts are designed for functionality and aesthetics, making them ideal for sharing commercial messages, information, travel and weather updates, wayfinding, advertising, entertainment, and more.

Anti-vandal

Why Choose Vandal-Proof Casings?

Vandal-proof casings and glass are essential for LCD displays and monitors located in vulnerable public spaces, where the risk of damage is significantly higher.

These protective solutions are designed to safeguard your displays from intentional harm and extend their lifespan.

Our vandal-proof displays feature 5-6mm toughened glass, engineered to withstand substantial impact. This robust glass ensures your monitors stay safe and maintain their clarity, even in high-risk environments.

Highlights Multibrackets Anti Vandal Solutions:

Broad Compatibility
Works seamlessly with all major high-bright screen types, including LG, NEC, Samsung, Dynascan and more.

Quick Installation
Comes nearly fully assembled, speeding up installation time and reducing costs.

Proven Reliability
With over twenty years of experience, Multibrackets is a trusted international supplier delivering high-quality solutions worldwide.

Cost-Effective Longevity
Our solutions increase display efficiency and lifespan, reducing total cost of ownership compared to frequent repairs or replacements.

This is a selection of displays that have been measured to fit into Multibrackets casings. If your display model is not mentioned in the list, visit the specific enclosure page online and compare its minimum and maximum measurements to those of your display. It may still fit.

Notes

**Everything starts with you.
For us to create great products it always
begins with putting you the user at the heart
of everything we do."**

Mission

We are on a mission to create products that are simple to install and use, that excites and solves our clients daily needs - everyday, all year around. Based in Stockholm, Sweden we design, develop and market AV Equipment. But we do it our way. Armed with a genuine passion for new technology and user centric innovation, we take a product and give it a little bit of Multibrackets magic!

About us

Founded in year 2000 we are a family owned business and represented in over 30 countries. Today we are considered one of the leaders in the rapidly changing environment of digital signage technology – together with our distributors we are providing hardware and services to enable the full value from idea to a ready product. With one of the most comprehensive product lines in EU we supply Audio Visual Equipment for every need. Multibrackets reputation for innovative products is well known.

Become a partner

Stay ahead of your competition – Let us help you become a partner. Simply send us an email on support@multibrackets.com or go to our webpage https://products.multibrackets.com/en/contact for a contact with us at Multibrackets and we will help you with a distributor's contact. We look forward to your email.

Sustainibility

At Multibrackets we see sustainability like a journey. Being in the AV business means we have a responsibility to take care of the environment and everybody who plays a part in making our products. We are working hard to design sustainable products, minimize our impact on the environment, improve our sourcing and create a great workplace for our employees. Find out more about what we are doing and what we've already achieved on our web.
